August 12, 2011

Dear Parent or Guardian:

The State of Missouri requires that all students attending school be in compliance with state immunization rules. A rule that went into effect beginning the 2010-11 school year requires that incoming 8th grade students have proof a Tdap (tetanus booster, including pertussis protection). **As of today, we DO NOT have proof of this immunization on file for your 8th grade student. We must have proof of this immunization prior to Monday August 22, 2011, or your child will be excluded from school until we receive it.**

Area urgent cares, such as the Wal-Green's Take Care Clinics as well as the St. Louis County Health Department have this vaccine. Your primary physician may also be able to administer it (without seeing the doctor). If you need assistance finding access to the vaccine, please contact your school nurse at 636-891-6858.

Our primary goals are always to provide a quality education in a safe and healthy environment. We appreciate your efforts in helping us achieve these goals.

Sincerely,
Amy Wehr, RN, BSN, NCSN
