 (9, 10, 11, 12) 1 Unit, All Year

Prerequisite: Passing grade in Geometry or Honors Geometry.

NOTE: To be successful in Algebra II, a grade of "C" or above in both Algebra and Geometry is recommended.

This course is designed for the college-bound student. In this course, the basic concepts from Algebra I are enriched. Topics studied include graphing, analyzing and interpreting functions including polynomial, rational, exponential and logarithmic functions; systems of linear equations and inequalities; matrices; conic sections; exponents and radicals. Calculators and computer software will be used when appropriate to enhance instruction.

Scheduling Units: 6

When you find the course you want to request, select it and click Request This Course. *Note: Once a course is selected, you can remove the request by clicking on the course name (under **Requested Courses**) and then clicking on **Drop This Request***

Important: Courses are offered for students as standard and/or blocked.
For Example; LA025B = Blocked
LA025S = Standard

If you elect to take blocked courses, you MUST request an even number of blocked courses each semester. Students must choose the same format for both semesters of a full-year course.

Note: You may need to scroll down to the bottom of the page in order to view the selection buttons

Some courses are offered at zero hour. Zero hour courses have a "Z" at the end of the course number. For Example; LA025Z = Zero Hour

Students should select core classes first, and zero hour courses last

Once you have requested 14 courses (7 per semester), you must choose 4 **Alternate Courses**. (Students who have elected to take zero hour will have 15 or 16 courses)

When you have requested 14 courses and 4 alternates, click on Print Request Summary. Return the completed and signed form to your counselor.
